# UEE Question Inventory — 2004 to 2025

Every examination year, stream and subject, with answer and explanation coverage

2026-11-03

### Reading the Source column

- `national-exams PDF (questions + key)` — the paper and a separate answer-key file are held in `EUEE_database/`.
- `temari PDF (questions only, no key file)` — the paper is held; no key file is held for it.
- `+ page scans` — scanned page images of the same paper are also held.
- `UNKNOWN — rows exist, no paper in library` — questions exist in the database but no source file does.
- `— not in library` — no questions and no file.
- `· same paper stored in both streams` — one paper shown under both streams; the two rows must not be summed.

**A note on verification** — the Source column records whether a paper file exists, not whether the rows were checked against it. No question-by-question verification against the PDFs has been performed, and the database holds no per-question source field.

| Exam Year (G.C.) | Stream | Subject | Total Questions | Answered Questions | Unanswered Questions | Questions With Explanations | Questions Without Explanations | Source |
|---|---|---|---|---|---|---|---|---|
| 2004 | Natural | Biology | 0 | 0 | 0 | 0 | 0 | — not in library |

Practice-bank rows (no exam year, excluded from every row above): **24**.

## Totals

| Measure | Count |
|---|---|
| Past-paper rows (all streams) | 9,744 |
| **Distinct past-paper questions** (stream-duplicate papers collapsed) | **6,650** |
| Answered | 9,696 |
| With a real explanation | 9,571 |
| Practice-bank rows (no exam year — not a past paper) | 24 |

Answered share: 99.5% of rows.

| Stream | Rows |
|---|---|
| Natural Science | 5,610 |
| Social Science | 4,134 |

The two stream columns must not be added to get the archive size — see the `Identical to other stream` column and the distinct total above.

# Gaps

Every paper that is missing outright (no row at all), grouped by cause.

## Whole examination years with nothing in the database

- **2019, 2020** — no rows for any subject in either stream (28 papers).

## Subjects missing in both streams for a year

- **2013** — missing 1: aptitude — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2014** — missing 1: aptitude — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2015** — missing 1: aptitude — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2016** — missing 1: aptitude — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2017** — missing 1: aptitude — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2018** — missing 1: aptitude — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2025** — missing 1: civics — *absent from all four archives checked; likely not an examined subject that year (SOURCES.md)*

## Single missing papers

- **2013 social** — economics — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2013 social** — geography — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2013 social** — history — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2014 social** — economics — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2014 social** — geography — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2014 social** — history — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2015 social** — economics — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2015 social** — geography — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2015 social** — history — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2016 social** — economics — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2016 social** — geography — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2016 social** — history — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2017 social** — economics — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2017 social** — geography — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2017 social** — history — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2018 social** — economics — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2018 social** — geography — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*

- **2018 social** — history — *never digitised by any archive found; the printed-compilation route is the only one (SOURCES.md §2b)*
- **2021 social** — economics — *absent from every online archive checked; possibly not examined in this year*
- **2022 social** — economics — *absent from every online archive checked; possibly not examined in this year*
- **2023 social** — economics — *absent from every online archive checked; possibly not examined in this year*

Subjects present in at least one year: biology, chemistry, civics, economics, english, geography, history, mathematics, physics, aptitude.

## Method and limits

- Source of truth: the `questions` table (`examYear` not null) joined to `subjects`. Nothing inferred.
- "Distinct" means distinct `(prompt, options)` within the whole table. Two questions with the same prompt but different options are counted separately, because that is what a student sees.
- The `Identical to other stream` column is computed by intersecting the two streams' `(prompt, options)` sets — not by trusting the stream label.
- Paper-level provenance comes from `EUEE_database/MANIFEST.csv`. Where that file has no paper for a year+subject that has rows, the source column reads `_no paper file_`: the rows exist but their source file is not in the library.
- `aiDeepExplanation` coverage is in the CSV; it was not counted as "with explanation" because the app shows the short explanation first.
